What we offer at Nestlé

Flexible work policies in terms of core hours and working from home. Please talk to us during the recruitment process about what flexibility could look like for you!

Genuine opportunities for career and personal development

Modern "smart office" locations providing agile & collaborative workspaces

Dynamic international working environment

Attractive additional benefits

Position Summary

As a Master Trainee in our Food Analytics department, your main activity will be to develop a method for the determination of total oligosaccharides in human milk. To apply contact sean.austin@rdls.nestle.com

We offer a dynamic, inclusive, and international working environment with many opportunities across different companies, functions, and regions. Don't miss the opportunity to join us and work with different teams in an agile and diverse context.

A Day in the Life of a Masters Trainee

- Review and keep up to date with literature on the subject
- Discuss experimental plan with supervisor
- Design and execute laboratory work to achieve objectives

What will make you successful

- Strong background in analytical chemistry
- Previous experience with chromatography and knowledge of carbohydrate chemistry would be advantageous
- Should be comfortable working in English.

At Nestlé, we want to help shape a better and healthier world, inspire people to live healthier lives and deliver impact at a scale and pace that makes a difference. We do this by fostering a diverse, friendly, supportive, and collaborative environment, that creates positive disruption, embraces innovation, and empowers people and teams to win.

We aim to hire friendly, respectful, inspiring people who care about the people's lives that we touch every single day.
